RE: SMOKING IN BUILDING

Dear Valued Residents,

As a gentle reminder we want to make you aware of the following information regarding second-hand smoke and the responsibility we all have to our neighbours.

Second-hand smoke can infiltrate a unit from various sources:

- from a neighbour's patio or balcony
- through open windows or doors
- through electrical outlets, cable or phone jacks, or ceiling
- light fixtures
- through cracks and gaps around sinks, countertops, windows,
- doors, floors, walls or dropped ceilings
- through exhaust vents in the bathroom as well as above the stove

If you smoke, please do as follows:

- Refrain from smoking to stop the odor from entering into the neighboring apartments and the hallways.
- Try to smoke outside.
- Use an air purifier or ventilating device in your apartment.

Hazelview Properties strives to accommodate and provide for all our residents, however your assistance with minimizing the amount second-hand smoke transference is very much appreciated by everyone, including your neighbours.

Thank you

West Lodge Management
